Dear Parents,

Your child has been learning to use phonics in spelling. For example, when *h* follows *c*, *s*, *t*, or *w*, the combination stands for a new sound. Here is an activity that you and your child can do together that provides word experiences using *ch*, *sh*, *th*, and *wh*. Each of the answer words is spelled with one of these letter combinations. Discuss the directions with your child. Then guide your child through the activity, letting your child do as much as possible without your help. Assist with spellings only as needed. Next, check the answers together.

Write answer words that are spelled with *ch*, *sh*, *th*, or *wh*.

not a little lamb, but a big _____

not black, but _____

not one or two, but _____

not the sister, but the _____

not grown-ups, but _____

not tall, but _____

not south, but _____

not dull, but _____

There's more you can do:

- Have your child identify words on your current grocery list that contain *ch*, *sh*, *th*, or *wh*.
- Have your child cut out *ch*, *sh*, *th*, and *wh* words from newspapers, magazines, or brochures. Then read the words together.
- Ask your child to list *ch*, *sh*, *th*, and *wh* words that s/he can find in a book, such as your child's library book. Then ask your child to sort the words in some way.
- When driving or riding with your child, look for signs that feature words containing *ch*, *sh*, *th*, or *wh*.

Thank you for your help! Every child a speller!

Main Idea Puzzler

Title: _____

Do you eat breakfast every day? Researchers have found that people who eat a balanced breakfast are likely to be healthier than those who don't. One reason is that most people eat whole grains at breakfast, and these promote good health. Breakfast also tend to have fewer weight problems than those who skip the meal. People who don't eat breakfast usually eat too much later in the day. Often, these foods are not healthy and can cause weight gain problems. So, be sure to eat breakfast. It is the most important meal of the day.
